THE WHITE METAL.

Signs of a Reaction in Favor of Silver-Bimetallism in Europe.

Judge W. F. Stone has just returned from Wiesbaden, Germany, and he has a word of cheer for the silver men. To a Denver Republican representative, he said:

"The intelligent and working classes are becoming daily more convinced that silver must be restored to its proper position in the currency of the world. Bimetallism is growing and growing rapidly in Europe, and the thoughtful see more and more that it is the money of the people. It is used universally there, that is, the small denominations of currency, and they cannot do without it. I believe the day is not far off when a ratio will be established by agreement among the nations. The people in Europe are coming to the belief, which is a true one, that gold alone is the money of the rich. The rich money lenders, who have in their grasp states and governments in Europe, are the gold men and have no use for silver. There you rarely see anything in circulation. Bills are scarce and you only get them when you ask for them at a bank.

"A somewhat similar condition exists in our own country east of the Mississippi river with regard to silver. You rarely see a silver dollar. It is all paper, with the exception of subsidiary coin. The first silver dollar I saw from the time I landed in New York on my way home, was in St. Louis, where, after making a purchase, in return for a \$5 bill I received four silver dollars in exchange. In the East business is stagnant, and business men are complaining of the dullness of trade. This condition is making them think on the silver question, and as a result bimetallism is gaining ground there also."

VERY FUNNY.

The funniest piece of editorial writing we have seen for a long time appeared recently in the Enterprise. Hear it:

Again the cry resounds throughout the land: "Equal rights, equal justice to all, special favors to none; protection for American productions, and the equality of all money, the free coinage of silver into American dollars, 16 to 1, the interchangeability of each kind one into the other, whether gold, silver or paper, on a perfect equilibrium."

That was the tocsin sounded by the Republican party in 1890; it sounds the same note of alarm in 1894. It is well to heed the warning.

Now 1890 is a long time ago, the Republican party...

any 16 to 1 tocsin in 1890. The particular date that the Republican party has cause to remember is the never-to-be-forgotten period of 1873. Then it sold itself to the bondholders and demonetized silver and it should be borne in mind that although this was over 20 years ago it has never made the slightest attempt to right the infamous wrong, but on at least twenty occasions it has voted to sanction its action.

The Situation in White Pine.

A week ago the goldbug papers published the statement that a Republican Club of 100 members had been organized at Ely, the County Seat of White Pine. A gentleman who doubted the truth of the statement wrote to a prominent citizen of Ely for information on the subject. He received the answer yesterday, which says:

"The town of Ely will, in all probability, poll 110 votes and no more, and the Silver party will cast, without doubt, two-thirds of them. The county of White Pine will poll about 400 votes, if there is no change for the better before the election, and reliable information from every precinct warrants the assertion that not 100 of the 400 will be Republican. The goldbugs are making a fight, but it is an uphill one, and White Pine can be relied upon for two hundred majority for the Silver party.—Journal.

The Board of Regents met in Reno yesterday.

EDITORIAL NOTES.

Mrs. John Martin is having a lively time on the stand in the will case.

The court excused her from telling who was the father of the child in dispute, and by the testimony so far it would be hard for her to say whether it was John Martin's, Henry Martin's or Andrew Crawford's.

It looks like the case of the girl in the park, giving her baby an airing. A lady passing saw the child and said: "What a handsome baby," at which three young men who were sitting on the bench with the mother rose simultaneously and bowed acknowledgement.

The Democratic Congressional Convention of the Ninth Iowa District met at Council Bluffs on August 8 to nominate a candidate. About two months ago General James B. Weaver, was nominated for Congress by the People's party. The Democratic Convention decided to make no nomination, but endorsed General Weaver by a vote of 72 to 20. Every county voted for Weaver except Cass. This endorsement renders the defeat of Congressman Hagar, the Republican nominee, most probable. It is reported that there are many free coinage Republicans who will vote for Weaver.

It would not have made a particle of difference to the opponents of silver in 1892 had Harrison been elected instead of Cleveland. The money dealers, who are blighting the industrial prosperity of the world, had their plans laid to give silver a final blow and had both the old parties retained for that purpose. Cleveland was elected and did what the money power expected, but his main advisers and supporters in the act were the leaders of the Republican party, who were vigorously sustained by their following.—Weekly Sentinel.

The Japanese cannot hope to whip China by killing off all her inhabitants, for, according to a statistician, if 1,000 Chinese should be killed every day, it would require 1,500 years to finish them. However Captain Bridgman, of the United States cruiser Baltimore, just from Corea, considers the odds largely in favor of Japan, which country has an effective army and navy, organized on the European plan.

It now transpires that the contract of any railroad company to carry none but Pullman cars is a violation of the Interstate Commerce law, as it is a discrimination against the Wagner cars. A car very much the superior of the Pullman.

What is the "rightful place" of silver, or the "historic place" of silver? Doesn't the answer depend entirely on the person who answers? Why not say "free coinage at 16 to 1," and be done with it? There is no dodging those words.

W. A. HAWTHORNE, Registrar Agent.

People who contemplate a trip to the mountains for an outing can not do better than pack up and go to the Rubican Springs. The best way to reach the Springs is by McKinney's Lake Tahoe, thence by stage eight miles, through a wild and picturesque country. Vade Clarke the proprietress, has made a number of improvements and the place is more attractive than ever before.
